

Excerpt from Journal

Office of the Legislative Counsel

Thursday - 6 June 1963

25X1

6. [redacted] Met briefly with Mr. Samuel Archibald, Staff Director, Subcommittee on Government Operations and Information of the House Committee on Government Operations, concerning the testimony received today from NASA representatives. Mr. Archibald indicated that the NASA testimony included quite a bit of Soviet satellite tracking. He indicated further that he would be pleased to talk with us on Monday or Tuesday after we have had a chance to review the transcript. He feels that he has some ideas that may be helpful which he will discuss with us at that time. He will be traveling out of the country over the weekend and he will not be available until Monday or Tuesday.
